Description:

Choose from our proven cutting systems with dispenser for roll material (such as paper, cardboard or foil) for use either as a stand-alone cutting station or right next to the packing workplace. The machinery quickly pays for itself since roll material is cheaper than cuttings.

Not only that, but it also makes the dangerous and time-consuming handling of knives and scissors superfluous.

The cutter cartridges can be exchanged without any effort. The round cutter for paper, cardboard, etc., the blade for all soft foil. A clamping mechanism allows comfortable insertion of the material and safe holding after every cut.
